

PANEL: ELECTRONIC CONNECTIVITY + EDA DATA = ELECTRONIC COMMERCE

Chair: Sean Murphy - Leader-Murphy Inc., San Jose, CA

Organizer: Sean Murphy - Leader-Murphy Inc., San Jose, CA

EDA Tools and EDA users are increasingly looking to the Internet for library information, bug fixes, and sending final design data electronically to ASIC foundries and board houses. This panel explores the impact the Internet has made on current electronic design practices and how you as a designer can benefit.

Panel Members:

Jeff Allison - Cisco Systems

Jake Karrfalt - Alternative System Concepts, Windham, NH

Michael McClure - Chronology Corp., Redmond, WA

Preston Roper - Synopsys, Inc., Mountain View, CA

Dennis Wilson - Mentor Graphics Corp.
