**Universal Serial Bus Heads to Europe**

The first European USB developers show, **EuroBus Expo '97**, will be held at the Royal Lancaster Hotel in London April 23-24. The two-day conference includes a series of one-hour sessions and an exhibitors showcase.

Registration costs US\$545 for members of the USB Implementors Forum; \$995 for nonmembers. To register or for more information, contact the USB Implementors Forum (Hillsboro, Oregon) via fax at 503.693.7975 or send e-mail to [janicex\\_1\\_grounds@ccm.jf.intel.com](mailto:janicex_1_grounds@ccm.jf.intel.com).

**PCI Plus Develops in Santa Clara**

The **PCI Plus Developers' Conference and Expo** comes to the Santa Clara (Calif.) Convention Center April 14-18. The week-long show includes numerous technical sessions organized in six tracks covering chip sets, design guidelines, form factors, and emerging technologies. Daily guest speakers include a number of Intel engineering and technical managers.

Registration fees run \$550-\$1,495. Contact Annabooks (San Diego) at 800.690.3858 or [www.annabooks.com](http://www.annabooks.com).

**Portable Components for Portable Computers**

The fourth annual **Portable Components** seminar and exhibit comes to the Clarion Hotel at the San Francisco Airport (Millbrae, Calif.) May 20-22. Sponsored by *Portable Design* magazine,

the conference covers flat panels, storage, batteries, infrared communication, and flash memories. The single-track schedule strings together a series of 30-minute presentations from a number of industry vendors, from Atmel to Iomega.

Early registration (before 4/15) runs \$475. To register or for more information contact Florida Educational Seminars (Boca Raton) at 561.367.0193 or [www.subcomm.com/FES](http://www.subcomm.com/FES).

**Handheld Health Care in Boston**

The **Forum for Handheld Computing** is organizing its second show, to be held in Boston May 28-30. The show will examine how handheld and mobile computing platforms can provide "point-of-care" services. Exhibitors will include Apple, Motorola, Sharp, and Proxim, among others.

Early registration (before 4/11) runs \$895. For more information or to register, contact WMS (San Francisco) at 415.252.8008 or access the Web at [www.pda-expo.com](http://www.pda-expo.com).

**Please Come to Denver for ISCA-24**

The 24th annual **International Symposium on Computer Architecture (ISCA-24)** is coming to Denver June 2-4, with tutorials and workshops on 6/1 and 6/5. on the 1st. This year's speakers will include U.C. Berkeley's Dave Patterson on instruction-level parallelism. **Consulting & On-Site Seminar Services**

MicroDesign Resources (MDR) provides consulting services based on our ability to bring focused technology analysis to your immediate decision-making situation. With expertise in technology rollout, adoption, and competitive trends, MDR analysts bring independent and savvy insight to your business problem.

If you need a broader overview of a specific area, MDR can deliver directly to your site the same state-of-the-art technology seminars that are offered at our Forums. With an in-house seminar, you can:

- Save time and travel expense
- Customize the seminar to meet your needs
- Have confidential question-and-answer sessions

For more information, contact MicroDesign Resources at 707.824.4001 or 800.527.0288, or send an e-mail to [consulting@mdr.zd.com](mailto:consulting@mdr.zd.com).
