Contents of CD-ROM

This CD-ROM contains every *Microprocessor Report* article since 1992, complete with all graphics, tables, and photos and installers for *Acrobat Reader with Search* for Windows and Macintosh. This software must be installed on your computer to use the index.

Beginning a Search

Press **Begin Search** here or launch the file **Start.pdf**.

Or select **Query...** from the menu Tools --> Search.

Or press the keyboard combination...

Control-Shift-F (Windows)

Command-Shift-F (Macintosh)

Search Options

Searches can be based on issue “At A Glance,” full text, article title, article type, issue publication date, or author.

To activate additional search options select **Preferences --> Search** located under the File menu.

Additional options such as boolean, word stemming, case matching, and proximity can be used to further fine-tune searches.

Search Preferences

To maximize your search choices, select
Preferences --> Search...

from the File menu and activate the following Query fields:

Show Fields

Show Options

Show Date

It is often preferable to set the Sort By: field to Created,
and the Show Top xx Documents to a larger number.

Search Fields

Full Text Any character string

Acrobat Reader Features

Bookmarks take you directly to the page containing the bookmarked item.

Article Flow allows you to navigate to the next screen view of an article with a single click.

Cross-references are hyperlinked so that related information is never more than a click away.

Simultaneous viewing of multiple documents can be set in Acrobat Reader Preferences.

Microprocessor Report Library **Product License Agreement**

Please read this document carefully before opening the Microprocessor Report Library CD-ROM. By opening this product, you agree to become bound by the terms of this license. If you do not agree to the terms of this license, do not open the CD and promptly return this product. Violations of this agreement terminate your license and may be cause for legal action.

MicroDesign Resources, publisher of Microprocessor Report, grants you a non-exclusive license to use the

Microprocessor Report Library (CD) on any single computer in your organization.

- You may not allow this CD to be used by others, either directly, or via any networking, file sharing, or multi-user system. Multi-user licenses are available for this product if you wish to share this CD over a network. Please contact MicroDesign Resources at (707) 824-4025 for information.
- You may not merge the information

found on this CD with any database or other program that is used by others.

You may make printouts of the Microprocessor Report information found on the CD for your personal use.

- You are not allowed to make multiple copies of any article found on the CD for distribution either within your company or to the public. If you need to have multiple copies of any article found on the CD, you must contact MicroDesign Resources and pay a per copy reprint fee. Call 408-328-3900 for reprint rates and authorization.

- You may not remove or obscure any notice of the MicroDesign Resources copyright found on this CD or its contents.

You may quote limited sections of information found on the CD for use in other documents or presentations in accordance with the fair use provisions of copyright law. You also may reproduce up to five figures per year from the CD in other documents or presentations provided you include the following credit line: 'Copyright MicroDesign Resources, reproduced with permission from the Microprocessor Report Library.'

This CD is sold only as part of a subscription service. Each quarter you will receive a new CD that contains all the articles available in the Microprocessor Report Library. You agree that upon receipt of each new CD you will destroy all previous copies of Microprocessor Report Library in your possession.

- You may not distribute out of date versions of the CD. The existence of out of date copies of this CD on your site constitutes a violation of this agreement and is cause for termination of your license.

This license is granted only to the Microprocessor Report subscriber who purchased the subscription to the Microprocessor Report Library on CD-ROM. The license may be transferred only to another subscriber in the same company by written notice to MicroDesign Resources.

This license constitutes the entire agreement and supersedes any prior agreements between MicroDesign Resources and you regarding this CD. All rights not explicitly granted are retained by MicroDesign Resources.
